

Better Products. Exceptional Quality.

BATTERY CHARGER

MODEL NO.	BC1210
Power	12V10A
Input Voltage	AC110-240V 50-60Hz
Output Voltage	DC 14.8V/29.6V+ - 0.3V
Output Current	12V (4A/5A/8A/10A) 24V (2A/3A/4A/5A) 12V/24V automatic identification
Peak Power	AC200W
Efficiency	85%
Dimensions	Product size: 180*90*60mm
Net weight	0.6KG
Use	4Ah-150Ah
Battery Type	Standard battery (STD) GEL battery, AGM battery 4AH-150AH A lead-acid Battery rechargeable

Better Products. Exceptional Quality.

BATTERY CHARGER

MODEL NO.	BC1220
Power	12V20A
Input Voltage	AC110V-220V
Output Voltage	12V/24V Automatic identification of 12V24V batteries
Output Current	12V (0-16A) /24V (0-8A)
Dimensions	Product size: 213*205*133mm
Net weight	0.9KG
Battery Type	12V or 24V lead-acid battery, start and stop the battery. Rechargeable 400AH battery, the following batteries, recommended 100AH below
Specification	1. It can be filled with lead-acid battery, water battery, dry battery, maintenance-free battery -AGM start-stop battery 2. Detect the internal pressure of the battery 3. Automatic identification of 12V and 24V battery 4. Power 300W, maximum current 25A

Better Products. Exceptional Quality.

BATTERY CHARGER

MODEL NO.	BC1230
Power	12V30A
Input Voltage	AC110V-220V
Output Voltage	12V/24V Automatic identification of 12V and 24V batteries
Output Current	12V (0-22A) / 24V (0-12A)
Dimensions	Product size: 225*197*125mm
Net weight	1KG
Battery Type	Suitable for charging: 12V/24V (Gel Battery, Deep Cycle, AGM Battery, Tubular Battery)
Specification	1. Detect the internal pressure of the battery 2. Power 400W, maximum current 30A 3. It can charge upto 400Ah, automatic stop charging
